

# NEC InfinityBoard®

## How could it benefit you?

The NEC InfinityBoard® is the only modular meeting room solution that bridges flexibility, choice and reliability to perfectly meet the needs of businesses.

### • Flexibility

The combination of an open platform and a computer with Windows 10 Professional installed means the solution can be tailored according to the customers' requirements without restriction to any particular software, video conferencing app, operating platform or infrastructure.

### • Choice

As a modular solution the customer has choice regarding the screen size or dual screen side-by-side set up, camera positioning, wall or trolley mount, height adjustability, audio solution and many more aspects facilitating flexible scenarios to ensure a perfect-fit solution.

### • Future proof & reduced installation efforts

The NEC InfinityBoard® is fully customisable and upgradable. One advantage greatly appreciated by IT departments is that the OPS slot-in PC can be set up and configured ahead of installation. The embedded PC can be easily upgraded at any time thus future proofing their investment and offering a compellingly low TCO.

### • Support and service

Operators benefit from NEC's industry leading support and warranty service. The NEC InfinityBoard® offers the convenience of an all-in-one device with the open flexibility to be tailored to each organisation, yet all its functionality is integrated under a single three year warranty.

## What is the NEC InfinityBoard®?

The NEC InfinityBoard® is an all-in-one collaboration solution combining an ultra-high definition touch display, camera, speakers and collaboration software in one device.

Designed to 'just work', the NEC InfinityBoard® supports any scenario from multiple presenters to large groups with remote participation. Meeting the needs for video conferencing, creative brainstorming, presenting, reviewing and collaboration to boost group work efficiency.

## Open and modular - the NEC InfinityBoard® is unique.

Open, modular and software agnostic – this is a truly unique offering. The NEC InfinityBoard® allows organisations to use any VC platform of their choice, such as GoToMeeting, Zoom or Skype for Business, and can integrate with their choice of software and OS.

Interactive Whiteboard Application to note down your creative ideas

## Who's using it?

Interest in the NEC InfinityBoard® is coming from a broad range of vertical markets: A multinational energy company based in Scandinavia, a European automotive manufacturer and an international consultant have all recently purchased devices to equip their meeting room facilities. A Bank headquartered in Germany has recently purchased devices for a multi-national rollout starting in Russia and a unit is in use within a healthcare establishment.

Passive pen for natural writing experience

Slot-in PC for any application needs

**"With the interactive NEC InfinityBoard® solution featuring high quality image reproduction and crisp and clear video streaming, communications and interactions in meetings and collaboration sessions have been raised to a new level."**

Dr. Calogero Cicero, Senior Medical Director of Radiology at the San Bassiano Hospital in Bassano del Grappa, Italy.
